# UNIPRO

THE ORIGINAL LAPTIMER

## UniWatch

- Large high resolution display
- Infrared temperature sensor
- Timing of up to 4 drivers
- Up to 9 splits per lap
- Transfer data to PC (USB)
- Multi-language
- Easy to operate

## UniStop

- Compact size
- Built-in clock
- Multi-language
- Easy to operate
- Up to 4 drivers
- Up to 9 splits per lap
- Transfer data to PC (USB)
- Calculates theoretical best
- Visual feedback (LED lights)

## Laptimer 6003 / 7003

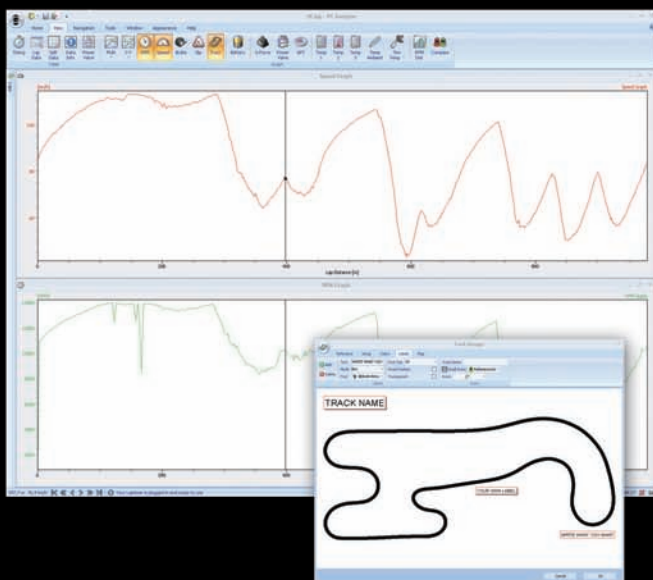

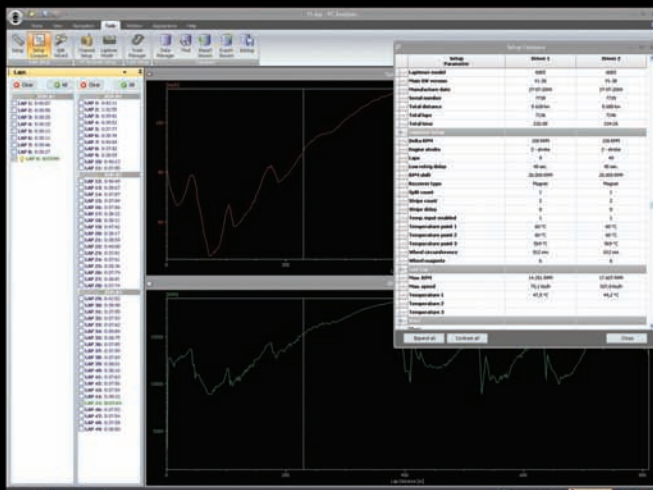

- Large customisable high resolution display
- Solid aluminium housing
- High precision sensors
- Highly durable cables and connectors
- Only one cable to the steering wheel
- Free placement of up to 8 split points
- Easy to operate

Free PC Analyser software

## Advanced PC Analyser software

### The most accurate RPM Calculation

All Unipro Laptimers use the most advanced measuring system available. While many other systems measure engine revolutions as an average over several meters, Unipro calculates with an accuracy of approximately 15 cm.

#### Unipro 7002 / 7003

Logging of data	Yes (8 hrs. 45 min.)
USB connection to PC	Yes (free Data Analyser Software)
Graphical display	Yes (7003)
Speed measurement	Yes (with speed kit)
Split times	Yes (magnet or wheel sensor)
Free choice of receiver	Loop, Magnet or IR
Temperature measurement	Yes (up to 3 inputs)
Engine timer	Yes (up to 25 engines)
Laps in memory	2000

#### Unipro 6002 / 6003

Logging of data	Yes (2 hrs.)
USB connection to PC	Yes (free Data Analyser Software)
Graphical display	Yes (6003)
Speed measurement	Yes (with speed kit)
Split times	Yes (magnet or wheel sensor)
Free choice of receiver	Loop, Magnet or IR
Temperature measurement	Yes (up to 3 inputs)
Engine timer	Yes (up to 25 engines)
Laps in memory	2000

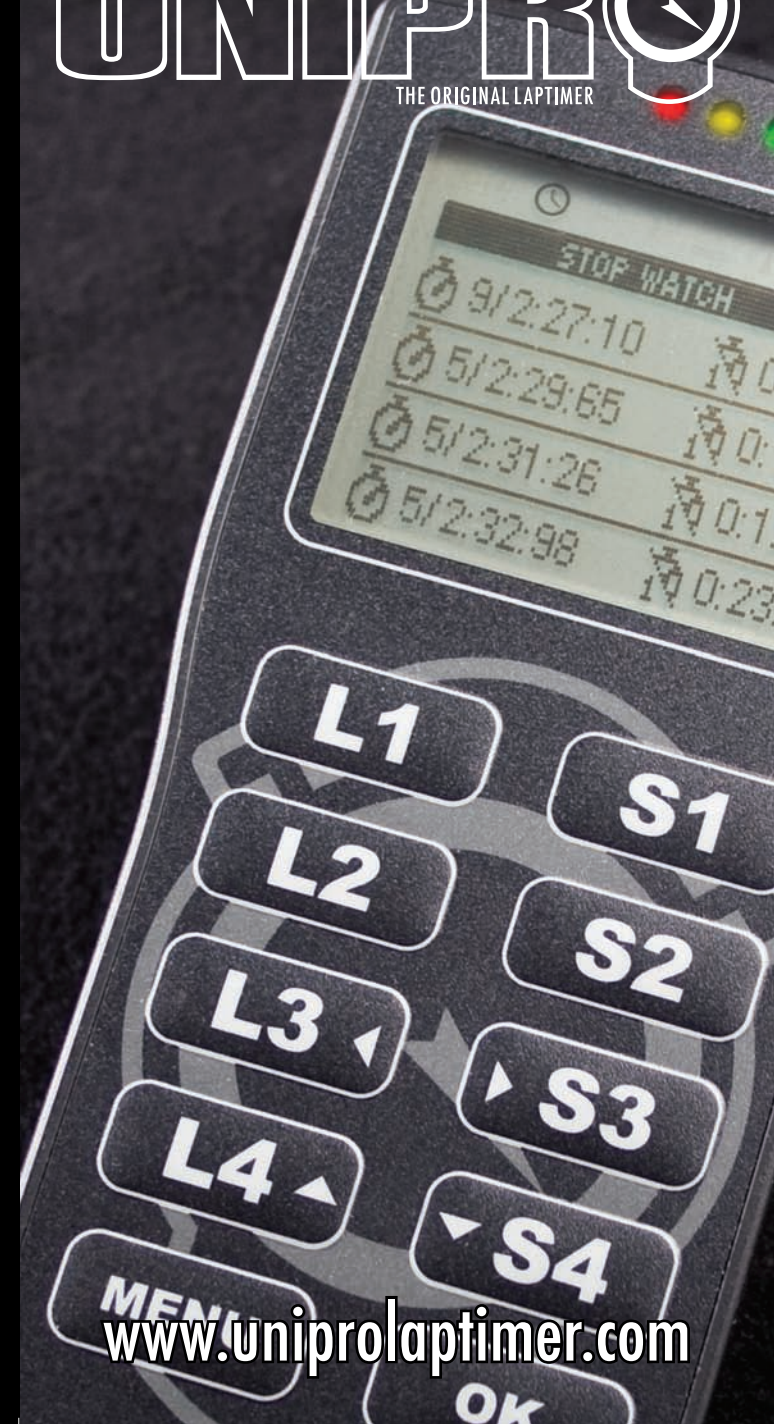

#### Unipro 5004

Speed measurement	Yes (with speed kit)
Free choice of receiver	Loop, Magnet or IR
Temperature measurement	Yes (1 input)
Engine timer	Yes (up to 10 engines)
Laps in memory	500

#### Unipro 3004

Speed measurement	Yes (with speed kit)
Free choice of receiver	Loop, Magnet or IR
Engine timer	Yes (up to 5 engines)
Laps in memory	175
